## How to Use the PM<sup>2</sup> Certification Handbook

This Handbook contains information about the PM<sup>2</sup> Certifications and certification process and aims to provide candidates with important instructions about the policies and procedures for obtaining and maintaining a PM<sup>2</sup> Certification.

The PM<sup>2</sup> Certification Handbook presents detailed information for each PM<sup>2</sup> Certification, the PM<sup>2</sup> Certifications Examination Procedure, the Certification Review & Appeals Procedure, the most frequently asked questions about the exam platform, as well as the PM<sup>2</sup> Alliance Code of Ethics & Professional Conduct.

The Handbook applies to both online proctored and paper-based Certification Exams. The PM<sup>2</sup>.EU recommends that all candidates read this entire Handbook before participating in a Certification Exam.

For all exam related information, please contact [support@pm2.center](mailto:support@pm2.center).

## About the PM<sup>2</sup> Certification Scheme

The PM<sup>2</sup> Alliance offers a comprehensive certification programme for different levels of education and experience. The certifications are developed and offered with the highest quality standards. For individual certifications, all actions are taken through the [exam platform](#) of PM<sup>2</sup> EU.

# CERTIFICATIONS

## Level 1

## Level 2

## Level 3

PM<sup>2</sup> Certifications test the level of the candidates' understanding of the what, when, who, how and why of the PM<sup>2</sup> Methodology. The exam questions are balanced in terms of difficulty and coverage of the 4 pillars of PM<sup>2</sup> (Governance, Lifecycle, Processes, Artefacts) plus the PM<sup>2</sup> Mindsets.

Candidates must demonstrate their understanding of PM<sup>2</sup> concepts at a level enabling them to apply PM<sup>2</sup> effectively in their project work.

## Overview of the PM<sup>2</sup> Basic Certification

The PM<sup>2</sup> Basic Certification is a Level-1 certification and an obvious choice for anyone who wishes to start their project management journey with a basic certification. It is designed to confirm a candidate's basic understanding of general concepts of the PM<sup>2</sup> Methodology. The certification exam primarily tests a candidate's understanding of the what and when of the PM<sup>2</sup> Methodology, and secondarily of the who and how. The exam questions are based on the four pillars of PM<sup>2</sup> plus the PM<sup>2</sup> Mindsets, focusing more on Lifecycle and Artefacts than Processes, Governance and Mindsets.

To achieve this certification, candidates must be sufficiently familiar with these PM<sup>2</sup> concepts, demonstrating they can follow the progress of a PM<sup>2</sup> project and communicate effectively with PM<sup>2</sup> team members and Project Managers.

### Target Audience

The PM<sup>2</sup> Basic Certification is a basic level certification designed primarily (but not exclusively) for non-Project Managers who participate in projects or aspire to play a role in project management:

- Project team members
- Project Management Assistants
- Project Administration Staff
- Account Managers
- University students
- Participants in EU funded projects

### Study Material

The exam questions are based entirely on the European Commission's:

- PM<sup>2</sup> Guide v3.1, 2023

### Exam Format & Difficulty Level

This is a **closed book** online proctored exam powered by our online examination platform:

- 45 minutes duration
- Multiple choice questions
- 45 questions per exam
- One mark awarded for every correct answer
- No negative marking for wrong answers
- At least 35 questions need to be answered correctly to pass the exam
- **Difficulty level:** Easy.

### Prerequisites

No prerequisites. Self-study.

## Overview of the PM<sup>2</sup> Agile Certification

The PM<sup>2</sup> Agile Certification is a Level-1 certification designed to confirm a candidate's understanding of the application of Agile principles, tools, and techniques in PM<sup>2</sup> Projects.

The PM<sup>2</sup> Agile Certification exam focuses on the Agile aspects of the PM<sup>2</sup> Methodology, covering the what, when, who, how and why of the PM<sup>2</sup> Methodology's Agile extension. The exam questions cover the areas of Agile PM<sup>2</sup> Governance, Lifecycle, Agile Values and Principles, Agile Tools & Techniques.

Candidates who achieve the certification have proven a level of methodological understanding required to lead a PM<sup>2</sup> project with Agile principles integrated effectively into the management approach.

### Target Audience

The PM<sup>2</sup> Agile Certification addresses the certification needs of anyone who works on projects which incorporate Agile practices, primary in the field of Information Technology:

- Project Managers/Leaders
- Team Coordinators (TeCo) / Team Leads
- Scrum Masters
- Agile PM<sup>2</sup> project team members
- Business Managers
- Project Management Assistants
- PMO/PSO members
- Project Owners
- Contractors' Project Managers
- Project Management educators & trainers

### Study Material

The exam questions are based on:

- PM<sup>2</sup> Guide v3.1, 2023 (Appendix - Agile Extension)
- Material covered during the Agile PM<sup>2</sup> Training delivered by PM<sup>2</sup> Alliance Affiliated Training Providers (see prerequisites)

### Exam Format & Difficulty Level

This is a **closed book** online proctored exam powered by our online examination platform:

- 40 minutes duration
- Multiple choice questions
- 45 questions per exam
- One mark awarded for every right answer
- No negative marking for wrong answers
- At least 31 correct answers to pass the exam
- **Difficulty level:** Medium to High.

## Exam outline

The **45** exam questions are distributed among thematic categories as per the below table:

Thematic Category	No of questions	Percentage
1. PM <sup>2</sup> Pillars & Mindsets	10	23%
2. Agile PM <sup>2</sup> Specific	35	77%
▪ Agile PM <sup>2</sup> Governance	5	11%
▪ Agile PM <sup>2</sup> Lifecycle	5	11%
▪ Agile Values and Principles	12	26%
▪ Agile Tools & Techniques	13	29%
Total Number of Questions	45	100%

## Prerequisites

There are no formal prerequisites for the PM<sup>2</sup> Agile Certification Exam, but it would be helpful to have at least one of the following:

1. Achievement of the PM<sup>2</sup> Basic Certification.
2. Agile PM<sup>2</sup> preparation training delivered by a PM<sup>2</sup> Alliance Certified Trainer.

## Overview of the PM<sup>2</sup> Essentials Certification

The PM<sup>2</sup> Essentials Certification is a Level-2 certification and a popular entry point into the world of PM<sup>2</sup> Certifications. It is designed to confirm a candidate's understanding of key concepts of the PM<sup>2</sup> Methodology. The certification exam tests the level of a candidate's understanding of the what, when, who and how of the PM<sup>2</sup> Methodology. The exam structure is based on the four pillars of PM<sup>2</sup> and the PM<sup>2</sup> Mindsets.

The exam questions are balanced in terms of difficulty and distributed across the five areas of Governance, Lifecycle, Processes, Artefacts, and Mindsets. For candidates to achieve this certification, they must demonstrate an understanding of the PM<sup>2</sup> concepts at a level that would allow them to work effectively as a member of the project team on a PM<sup>2</sup> project.

### Target Audience

The PM<sup>2</sup> Essentials Certification is suitable for anyone leading or participating in projects, regardless of their specific domain of application:

- Project Managers
- Business Managers
- Project Owners
- Portfolio Managers
- Project team members
- Project Management Assistants
- PMO/PSO members
- Programme Managers
- Project contractors
- Participants in EU-funded projects
- Project Coordinators

## Overview of the PM<sup>2</sup> Advanced Certification

The PM<sup>2</sup> Advanced Certification is a Level-2 certification designed to confirm a candidate's understanding of basic and advanced concepts of the PM<sup>2</sup> Methodology both at an individual concept level, and at the level where interrelations and interdependencies exist.

The exam questions span the five areas of Governance, Lifecycle, Processes, Artefacts and Mindsets and focus on the more applied aspects of the PM<sup>2</sup> Methodology. The full breadth of the what, when, who, how and why of the PM<sup>2</sup> Methodology is covered.

Candidates who achieve the certification have proven a level of methodological understanding required to lead a PM<sup>2</sup> project effectively (or support a PM<sup>2</sup> project from an expert's position).

### Target Audience

The PM<sup>2</sup> Advanced Certification addresses the certification needs of anyone leading projects or supporting projects from a position of advanced knowledge:

- Project Managers
- Business Managers
- Project team members
- Project Management Assistants
- PMO/PSO members
- Contractors' Project Managers
- Project Coordinators of EU funded projects
- Project management educators and trainers
- Graduate Project Management students

### Study Material

The exam questions are based entirely on the following European Commission publications:

- PM<sup>2</sup> Guide v3.1, 2023
- All PM<sup>2</sup> Artefacts templates
- PM<sup>2</sup> Tools & Techniques (PM<sup>2</sup> Guide 3.0, Appendix C)

### Exam Format & Difficulty Level

This is a **closed book** online proctored exam powered by our online examination platform:

- \*60' minutes duration
- Multiple choice questions
- \*70 questions per exam
- One mark awarded for every right answer
- No negative marking for wrong answers

### Prerequisites

No formal prerequisites. However, it is recommended that candidates hold a PM<sup>2</sup> Essentials Certification and/or follow a PM<sup>2</sup> Advanced Certification preparation training delivered by a PM<sup>2</sup> Alliance Affiliated Training Provider.

## Overview of the PM<sup>2</sup> Expert Certification

The PM<sup>2</sup> Expert Certification is a Level-3 certification designed to confirm a candidate's capacity to implement the PM<sup>2</sup> Methodology in real-world conditions.

Candidates who achieve this certification have proved a deep level of understanding of the methodology and their ability not only to apply PM<sup>2</sup> best practices in their own projects, but also to help others apply them from an expert's position.

### Target Audience

The PM<sup>2</sup> Expert Certification addresses the certification needs of anyone supporting organisations, project managers and projects from a PM<sup>2</sup> methodology expert's position:

- Project Management Experts
- PM<sup>2</sup> Methodology Experts
- PMO/PSO internal support experts
- Staff of organisations that offer project management services to EU-funded Projects
- PM<sup>2</sup> Educators & Trainers
- Project Coordinators
- PM<sup>2</sup> Consultants

### Study Material

The exam questions are based on the following European Commission publications:

- PM<sup>2</sup> Guide v3.1, 2023
- All PM<sup>2</sup> Artefacts templates
- Project Management Tools & Techniques
- In class material (received during the PM<sup>2</sup> Expert training)

### Assessment Format & Success Rate

The PM<sup>2</sup> Expert Certification consists of two parts: an online **Case Assessment**, and an online **Exam**.

1) The **PM<sup>2</sup> Expert Case Assessment** is the first part of the PM<sup>2</sup> Expert Certification and lasts approximately 10 weeks. Over this period, candidates construct their PM<sup>2</sup> plans, working 100% online, while the assessment instructor provides guidance, tips and tricks and answers all their questions.

The assessment is considered complete when the PM<sup>2</sup> project is submitted and documented using the following PM<sup>2</sup> Artefacts templates: Project Initiation Request, Business Case, Project Charter, Project Handbook, Project Work Plan, Business Implementation Plan, the Project Logs and the Project Status Report.

In this context, candidates must propose their own real-world projects (completed projects may also be submitted). As soon as the proposed case is approved, candidates submit their PM<sup>2</sup> plans one at a time for review by the assessment instructor, whose feedback may be incorporated into the final deliverables before they are evaluated.

2) The **PM<sup>2</sup> Expert Exam** is the second part of the PM<sup>2</sup> Expert Certification. It is an online proctored exam powered by the PM<sup>2</sup> EU's online examination platform. Unlike all other PM<sup>2</sup> Certifications, the PM<sup>2</sup> Expert

Certification Exam is based on questions which strike a balance between advanced PM<sup>2</sup> knowledge and situational judgement. The exam can only be taken after the candidate has successfully completed the case assessment.

- Online, open book & notes exam
- 40 minutes duration
- Multiple choice questions (advanced PM<sup>2</sup> knowledge and situational judgement)
- 30 questions per exam
- One mark awarded for every right answer
- No negative marking for wrong answers
- At least 25 correct answers to pass the exam

**Success rate:** The success rate for this exam is 90%.

### Prerequisites

There are various **formal prerequisites** for the successful completion of the PM<sup>2</sup> Expert Certification:

1. PM<sup>2</sup> Essentials Certification
  2. PM<sup>2</sup> Advanced Certification
  3. Completion of the relevant PM<sup>2</sup> Expert Training
  4. Completion of the online PM<sup>2</sup> Expert Assessment Process
  5. Online PM<sup>2</sup> Expert Certification Exam
-

## Overview of the PM<sup>2</sup> Trainer Certification

The PM<sup>2</sup> Trainer Certification is a Level-3 certification designed to test a trainer’s mastery-level knowledge of all aspects of the PM<sup>2</sup> Methodology. It also tests candidates’ ability to design high-quality PM<sup>2</sup> Training Programmes, as well as to effectively explain basic and advanced aspects of both the methodology and the certification process.

### Target Audience

All PM<sup>2</sup> Alliance Affiliated Training Providers offering PM<sup>2</sup> courses must deliver their trainings through tutors who have attained the PM<sup>2</sup> Trainer Certification.

- PM<sup>2</sup> Professional Trainers
- PM<sup>2</sup> Educators
- PM<sup>2</sup> Coaches
- Designers of PM<sup>2</sup> training programmes

### Study Material

The exam questions are based on:

- PM<sup>2</sup> Guide v3.1, 2023
- The PM<sup>2</sup> Artefacts Templates and Management Plans
- The Train-the-Trainer (TtT) course notes

### Exam Format

This is a **closed book** online proctored exam powered by our online examination platform:

## Refund Policy

### 1. Refunds for Exam Purchases

- Candidates who have **not yet booked an exam slot** may request a refund **within 14 calendar days** from the date of purchase by sending an email to support@pm2.center. Refunds will be processed via the original method of payment and will incur a **€30 administrative fee**. Written confirmation of the refund will be provided within 10 working days.
- **No refunds will be granted** if an exam slot has already been booked, even if the request is made within 14 calendar days of purchase.
- **No refund requests** will be accepted **more than 14 calendar days** after the original purchase date, regardless of exam slot booking or participation status.

### 2. Failed Exams

- **No refunds** will be provided in the event a candidate **fails** a PM<sup>2</sup> Certification Exam. Candidates are advised to prepare thoroughly before attempting the exam.

### 3. Technical Interruptions

- If the exam is interrupted due to **technical issues** (e.g., connectivity problems), the candidate must notify support@pm2.center **within 5 working days** of the exam date.
- The **Certification Reviews & Appeals Committee (CRAC)** will assess the case. If the claim is validated, a **free retake voucher** will be issued within 10 working days.

### 4. Voucher Expiration and Extensions

- Candidates who have received a **voucher for a PM<sup>2</sup> Certification Exam** and wish to extend its validity must send a request via email to support@pm2.center.
  - If the **voucher is still valid**, it may be extended upon payment of a **€10 extension fee**.
  - If the **voucher has already expired**, it may be reactivated with a **€30 reinstatement fee**.
  - **No refunds** are issued for unused or expired vouchers. If the candidate does not wish to pay the reinstatement fee, they must **purchase a new voucher** and proceed with a new booking.

### 5. Purchases via Affiliated Training Providers (ATPs)

- If the certification exam was purchased through a **PM<sup>2</sup> Alliance Affiliated Training Provider (ATP)**, all **refund and cancellation requests must be addressed directly to the ATP** and are subject to their respective terms and conditions.

## PM<sup>2</sup> Certification Examination Information

Online proctored exams are becoming a trend in the certification industry, with more and more professionals seeking ways to reduce the hassle of getting certified.

Online proctoring refers to a digital form of assessment which allows you to sit for an exam from any location using dedicated software, a predefined set of computer apparatuses, and some basic rules governing the candidate's behavior to guarantee a fair and fraud-free procedure.

- Proctored testing is the standard method of administration for PM<sup>2</sup> EU examinations.
- The PM<sup>2</sup> Certification examinations consist of a set of multiple-choice questions (the number of choices per question may differ).

- Care has been taken to ensure the PM<sup>2</sup> Certification Exams measure what they purport to measure.
- Paper-based exams (PBE) are available under particular circumstances and are coordinated directly by the PM<sup>2</sup> EU.
- There are **no scheduled breaks** during the exam.
- PM<sup>2</sup> Certification examination questions:
  - are developed in accordance with the ISO/IEC 17024 standard
  - are developed and independently validated by a dedicated group of PM<sup>2</sup> Certified Experts
  - are analyzed through psychometrics;
- PM<sup>2</sup> Certification Exams are available in English. For large groups, localised exams may also be conducted by special arrangement (for a limited number of EU languages).
- Once an application has been approved and the exam voucher has been issued, the 6-month eligibility period begins. After that period, the voucher automatically expires.

### PM<sup>2</sup> EU Examination Security & Confidentiality

In the case of paper-based exams (PBE), the examination questions, answer sheets, worksheets and/or any other test or test-related materials remain the sole and exclusive property of the PM<sup>2</sup> EU. These materials are confidential and are not available for review by any person or agency for any reason.

Examination (pass/fail) results are confidential and will not be disclosed to anyone without the candidate's consent unless this is required by a valid and lawful subpoena or court order. If you would like your examination results to be released to a third party, you must provide the PM<sup>2</sup> EU with a written request specifying the type of information (e.g. examination date, pass/fail status, etc.) relating to the examination results that the third-party person or organization should receive.

### Requirements & Instructions

To be admitted to the exam, you must present a valid and current (non-expired) form of government-issued identification. Your identification must include:

- English characters/translation
- your photograph, and
- your signature

If your government-issued identification does not include a photograph or signature, a secondary form of identification may be used, which includes a photograph and/or signature (whichever is missing from the government-issued identification) as well as your name printed on the identification. All identification must be current (non-expired).

All forms of identification presented at the testing facilities must match your name exactly, as it appears on the scheduling notification. Your identification documents must be in good condition and cannot be bent, frayed, taped, cracked, or otherwise damaged. The documents must be originals and cannot be photocopies. You will not be permitted to test, if the name on your identification documents does not exactly match the name on your scheduling notification, or if your identification is damaged. The PM<sup>2</sup> EU will make no exceptions to this policy.

If you do not provide appropriate and/or matching identification, you will not be permitted to test. If you still wish to take the exam, you will be required to apply for re-examination and pay the re-examination fee to take the exam at a later date, when valid identification is available.

The following are acceptable forms of government-issued identification:

- Valid passport
- Valid national identification card
- Valid military ID

The following are acceptable forms of secondary identification:

- Valid employee ID
- Social Security cards

### Name Change Procedure

The certificates to be issued upon successful completion of an exam will display the candidate's name as they wrote it on the exam request form when registering.

All candidates retain the right to request an update of their first name, middle name, or family name if:

- They wrote them wrongly on the above form
- They have officially changed their first name or family name

The changes will be applied by the PM<sup>2</sup> EU upon reception of:

- The old certificate issued by the PM<sup>2</sup> EU
- An official identification document\* (valid ID, Passport)
- In the case of a name change, an official document\* that justifies the modification.

\*The PM<sup>2</sup> EU will handle and store this sensitive information according to the standing GDPR rules.

The above request should be forwarded to the PM<sup>2</sup> EU by email to [support@pm2.center](mailto:support@pm2.center).

Along with your request, please include the following information, exactly as it appears on the government issued identification documents you plan to submit:

- First Name [Given Name]
- Middle Name
- Last Name [Surname/Family Name]

### Testing Aids

#### Online Proctored Computer-Based exams (CBE)

All necessary aids are included within the exam application interface. Test candidates are prohibited from using any additional aids, such as scrap paper, during the test.

#### Testing Aids - Paper Based Exams (PBE)

Test candidates are prohibited from using handheld calculators, scrap paper or any other aid during the test. Each candidate will be provided with:

- An exam form
- One answers sheet
- One pencil or pen
- One eraser

Any breach of the above rules may result in the exam being suspended and the candidate failing.

## Termination of Examination and Grounds for Dismissal

As a PM<sup>2</sup> EU Certification Candidate you are expected to always behave in a professional manner.

The PM<sup>2</sup> EU test supervisor or proctor is authorized to dismiss you from an examination, cancel your scores and take any other appropriate action, when there are reasonable grounds for suspecting that you have engaged in any of the following actions:

1. Using or attempting to use someone else to take the test
2. Failing to provide acceptable personal identification
3. Accessing or using notes or some other prohibited aid relating to the test
4. Creating a disturbance or engaging in suspicious behavior
5. Communicating in any manner with any person other than the test supervisor or proctor about the test during its administration
6. Attempting to remove scrap paper from the testing room, or tearing the scrap paper in any way
7. Leaving the testing room or the webcam's field of vision
8. Copying or attempting to copy or remove examination-related material, or portions of a test in any format
9. Attempting to tamper with the computer
10. Engaging in dishonest or unethical conduct of any sort, such as attempting to cheat

Should you fail to comply with the test supervisor's or proctor's directions, the PM<sup>2</sup> EU reserves the right to take any action including but not limited to barring you from future testing and/or cancelling your scores. If your scores are cancelled, you will be notified of both the decision and the basis on which it was taken, and your examination fees will not be refunded.

Although tests are administered under strict supervision and with strict security measures in place, examination irregularities may sometimes occur. You are required to contact the PM<sup>2</sup> EU as soon as possible to report any behavior you observe that may lead to an invalid score—for example, someone copying from another test taker, taking a test for someone else, having access to test questions before the examination, or using notes or unauthorized aids. All information will be held in confidence.

## Certification Review & Appeals Procedure

An exam review can be requested when a candidate believes that a problem or event prevented them from successfully completing or succeeding in a PM<sup>2</sup> Certification Exam. If the request for review relates directly to one or more exam questions, the details of the problem must be clearly explained and the necessary information provided (i.e. e-Voucher or Test number, question number and/or a description of the question). This will allow the PM<sup>2</sup> EU Certification Reviews & Appeals Committee (CRAC) to identify the question and review the claim.

An appeal can only be made on the following grounds:

- the irregularity of the exam platform during the exam
- the irregularity of a specific question
- unfair dismissal or exam suspension

Requests should be submitted formally marked for the attention of the PM<sup>2</sup> EU Certification Reviews & Appeals Committee (CRAC), within **5 working days** of the date of the exam. The PM<sup>2</sup> EU will automatically acknowledge receipt of the request for review or appeal automatically, will conduct the necessary investigation in a constructive, impartial, and timely manner, and provide an answer within 10 working days. The Committee's decision will be final. A record of the complaint, including any subsequent action(s) taken and the decision made, will be maintained by the PM<sup>2</sup> EU. All information pertaining to the complaint will remain confidential.

Should the PM<sup>2</sup> EU Certification Reviews & Appeals Committee (CRAC) acknowledge a mistake in a question, the procedure is as follows: the question will be removed from the exam and the candidate's final score will be recalculated on the basis of remaining number of valid questions. The PM<sup>2</sup> EU Certification Reviews & Appeals Committee (CRAC) is comprised of the following three members:

1. PM<sup>2</sup> EU Certifications Coordinator
2. PM<sup>2</sup> EU Expert 1 and Expert 2

Please also note the following:

- Candidates **accept** the rules of the examination by starting it. Therefore, appeals against the examination rules as published in the exam invitations and communicated at the start of the exam session **will result to a negative outcome**.
- To safeguard the credibility of the exam and its fairness for future candidates, the wording of the questions and their answers **will not be communicated**.
- For more information, please visit and review the [Appeals and Complaints](#) page.
- For further information, please contact [support@pm2.center](mailto:support@pm2.center) using "Certification Review & Appeals" as your subject heading.

2. Click on **View Result** for the particular exam whose certificate you want to view.

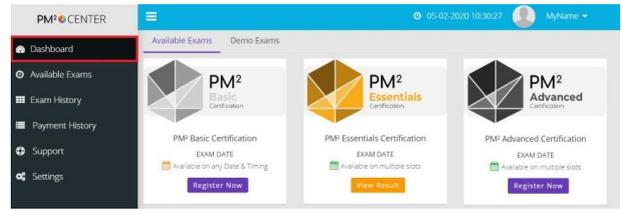

3. Click on **View Certificate**.

4. You will be redirected to a web page where you can **view your certificate**.

- 3rd Way:
  1. Click on **Dashboard**.

2. Scroll down to the **bottom** of the **web page**.
3. Click on **View Certificate** for the particular exam whose certificate you want to view.

4. You will be redirected to a web page where you can **view your certificate**.

Question 19: What is my Issue Date and where can I find it?

Answer 19: Your **Issue Date** is the date on which your certification was issued. It appears on the top left of your certificate.

Question 20: What is my re-evaluation date and where can I find it?

**Answer 20:** Some certificates **expire** and require re-evaluation, so the **re-evaluation date** is the date by which you need to **re-take the exam**. It appears on the left of your certificate.

**NOTE:** **Not all** certificates **expire**. If your certificate does not include a re-evaluation date, it means no re-evaluation is required.

Question 23: What is my Credential URL and where can I find it?

**Answer 23:** Your **Credential URL** is the **link** to your certificate. You can find it through the exam platform by clicking on **Exam History**, then the **name** of the corresponding certificate, and then choosing **View Certificate**.

Credential URL

<https://pm2.center/Candidates/Certificate?certino=t4da4QaNwCrM7GmPf6mRfg%3D%3D&t=a>

Question 24: What is my QR Code and where can I find it?

**Answer 24:** QR is short for **Quick Response**. In general, QR codes are used to transfer information from transitory media to your cell phone. To ensure the validity of our PM² Certificates, we give each a unique QR Code. You can **scan** your **QR Code**, and a notification will appear on your screen. Click on the link and you will be redirected to a webpage displaying your Certificate. Your QR Code appears on the left of your certificate.

Question 21: Can the re-evaluation exam be taken for free?

**Answer 21:** The re-evaluation exam is **free**, so you do not need to pay to participate.

Question 22: What is my Credential ID and where can I find it?

**Answer 22:** Your **Credential ID** is your **certification number** and it appears on the left of your certificate.

Question 25: How do I save my certificate?

## PM<sup>2</sup> Alliance Code of Ethics & Professional Conduct

The PM<sup>2</sup> Alliance was founded by project management professionals committed to professional excellence and a common vision: sharing the benefits of the PM<sup>2</sup> Methodology with the world.

The PM<sup>2</sup> Mindsets and the PM<sup>2</sup> Alliance Code of Ethics seeks to inspire PM<sup>2</sup> Certification holders, volunteers, members and affiliates and help them maintain the highest ethical and professional standards. Comprised of aspirational principles rather than a set of standards that are enforced on them, the PM<sup>2</sup> Alliance Code of Ethics promotes professional excellence through ethical criteria that transcend typical professional and legal obligations.

Encouraging ethical decision-making and conduct, it aims both to complement organisational policies and practices and to facilitate their application. Most importantly of all, the Code of Ethics reflects a consensus on the importance of “doing the right thing” and behaving responsibly towards stakeholders and society.

The Code of Ethics should be adhered to by everyone who works with the PM<sup>2</sup> Alliance, as well as by the people and organisations that are certified by it.

### Key Principles

1. **Commitment to Stakeholders:** We keep stakeholders’ best interests in the forefront of our minds. We are willing to do the best we can to serve their interests and objectives, to protect their personal integrity, and to ensure their personal safety and security, individual growth and financial welfare.
2. **Commitment to Excellence:** We endeavor to identify and follow best professional practices and commit to continually improve our knowledge and skills in order to do so.
3. **Respect:** We respect cultural, political and economic diversity: our relations, transactions and practices with stakeholders rely on it.
4. **Transparency and Truthfulness:** We cultivate openness and disclose information appropriately to facilitate professional efficiency and promote trusting, mutually beneficial, sustainable relationships with stakeholders.
5. **Trustworthiness and Accountability:** We deliver what we promise and take ownership of and responsibility for the results.
6. **Integrity:** We apply the principles laid out in this code consistently and will not compromise some in favour of others.
7. **Social Responsibility:** We are aware of our impact on the community and aim to promote a socially, economically and environmentally sustainable environment.

### Ethics and Best Practices

The standard of conduct that reflects the above principles could contain, but need not be limited to, the following best practices:

#### Commitment to Stakeholders

1. We take care to identify stakeholders’ expectations and needs as they change over the duration of the project.
2. We identify and protect stakeholders’ best interest from a professional, legal and ethical point of view.
3. We address and consolidate stakeholders’ diverse needs, proposing appropriate solutions that accommodate those needs.

4. We apply fair billing procedures and provide honest and accurate progress reports.
5. We endeavour to bring results of the highest value for stakeholders and care for both the quality and sustainability of the results.

### **Commitment to Excellence**

6. We strive for the best results possible, applying solutions that meet stakeholders' needs while maximising the use of available resources.
7. We ensure a healthy and safe working environment, applying the highest health and safety standards.
8. We commit to maintaining and developing our professional competence through relevant lifelong learning.
9. We do not require or permit people under our control and supervision to engage in projects that exceed their competence, as this is defined by their education, training, certification status, and experience.
10. We ensure that our business partners also apply the above standards.

### **Respect**

11. We do not discriminate based on race, sex, gender, sexual orientation, age, culture, religion, national origin, disability, social status, economic status etc.
12. We do not abuse our power in any way and do not engage in harassment, sexual or otherwise. We take precautions to ensure abuses of power and harassment do not take place.
13. We respect the cultural values and customs of others to the extent that these do not violate the ethical principles set out here and are not contrary to the projects' goals.
14. We manage conflicts stemming from social and cultural differences with cultural sensitivity.
15. We respect others' contributions, compensate them fairly, and acknowledge their contributions in front of others.

### **Transparency and Truthfulness**

16. We encourage stakeholders to express their expectations, needs and other considerations freely.
17. We protect stakeholders' rights and privacy as required by legal and ethical considerations and explain any limitations on confidentiality.
18. We respect confidentiality and only disclose and/or discuss confidential information with people who are entitled to the information.
19. We provide stakeholders with the information they need to make well-informed decisions and to participate productively in the project.

### **Trustworthiness and Accountability**

20. We are committed to delivering what we promise.
21. We set realistic goals, exercise regular cost and quality controls, and take appropriate corrective actions when needed.
22. We provide reasonable notice if we cannot meet our professional obligations, either permanently or temporarily.

23. We recruit the most suitable people and business partners for a project and support them with the knowledge, equipment and methodology needed to deliver the desired results.
24. We maintain accurate and timely records and take measures to protect the confidentiality and security of these records, access to which shall be permitted to the extent that it is legally authorised or required.

### **Integrity**

25. We fully comply with any home and host country laws and regulations which are applicable
26. We are honest about our professional qualifications, which include our education, training, competence, credentials and experience.
27. We uphold and promote high ethical standards. We remain on our guard against all forms of bias, even when we are working in association with companies, corporations, institutions or governments whose practices or policies are morally deficient.
28. If there is evidence that the law or professional and ethical standards have been violated, we react immediately to protect the stakeholders, either working collaboratively with the persons involved to resolve the situation or, if necessary, formally reporting the person who committed the violation to the appropriate internal or external authorities, regulatory bodies or associations.
29. We identify and appropriately handle potential conflicts of interest, either by avoiding them or disclosing them to the affected parties.

### **Social Responsibility**

30. We endeavour to create sustainable and mutually beneficial relationships with stakeholders, which are respectful of economic, social, and environmental concerns.
31. We foster awareness of any harmful project-related environmental and social impacts and strive to minimise them.
32. We consider a project's environmental, economic, and social impacts and prepare for them in both project design and management.
33. We solicit community input and utilise local experts, resources, goods and services when appropriate to optimise the social and environmental outcomes.
34. We maximise the use of available resources and search for and apply solutions that minimise environment costs.
35. We are interested in achieving long-term results that ensure sustainable development.

The PM<sup>2</sup> Alliance carries the torch of the Open PM<sup>2</sup> vision, promotes and evolves PM<sup>2</sup>, and takes it to places “where no PM<sup>2</sup> has gone before”. It brings the Open PM<sup>2</sup> community together, connecting PM<sup>2</sup> practitioners, trainers, experts and project managers from all over Europe and works with other Institutions and organisations in promoting better project management in Europe.

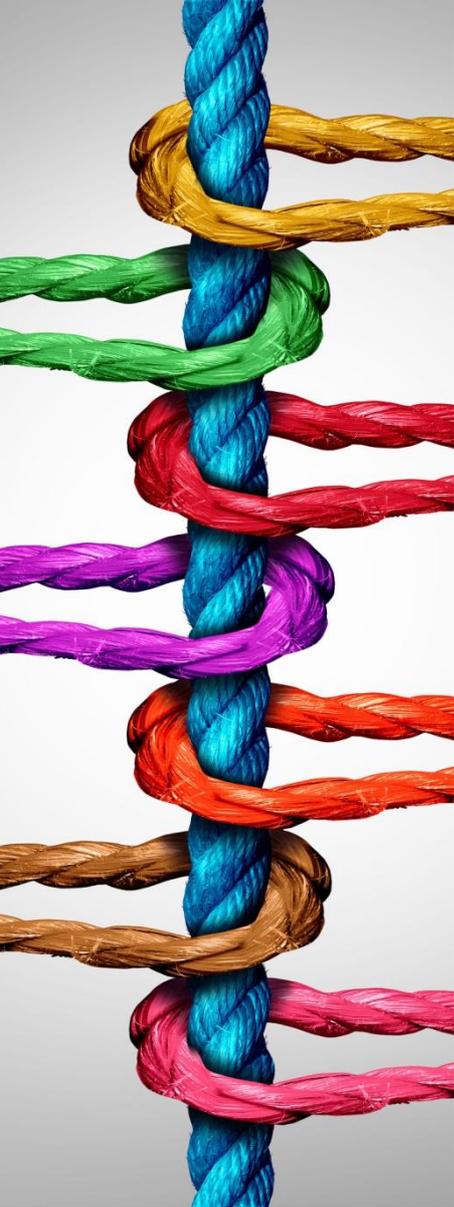

Together we agree that the time has matured for the adoption of a common project language, a common project methodology.

# ONE METHODOLOGY - ONE COMMUNITY

*Member-driven and volunteer-led, the PM<sup>2</sup> Alliance is an international, not-for-profit organisation. Founded by PM<sup>2</sup> practitioners, the Alliance brings together individuals from institutions, companies and the academia to inspire dialogue, share resources, and address the field’s challenges while promoting the wider adoption of the PM<sup>2</sup> Methodology.*

We believe that the future of project management depends on the community of project managers working together, and that the PM<sup>2</sup> Alliance has a crucial role to play in enabling the sharing of knowledge and experiences and fostering appreciation of PM<sup>2</sup> as a common, open and free methodology for Europe – and beyond.

The association supports the professional growth of its members by providing opportunities for lifelong learning, career development, and professional networking. The PM<sup>2</sup> Alliance offers volunteer opportunities for members and non-members alike. The community has a direct and critical impact on PM<sup>2</sup> Alliance’s governance (as with the methodology’s development) as volunteers also serve on the PM<sup>2</sup> Alliance’s Council.
